SUMMARY

As a recent college graduate, I am passionate about Java development and possess a solid foundation in computer science principles. I have completed multiple Java projects, including an online shopping platform and a data management system. I am a quick learner, problem solver, and team player who is excited to contribute to an organization's success.

TECHNICAL SKILLS

Programming languages:

Java, PHP, Python, JS

Web Technologies:

J2EE, HTML5, CSS

Data Modelling:

XML

Data Management:

MySQL, MongoDB

Platforms:

Unix, Windows

CERTIFICATIONS

- JAVA & C++ Programming Essential Bootcamp | Lets Upgrade | Nov'22
- Responsive Web Design | FreeCodeCamp | Jul'22
- SQL (Basics) | HackerRank | Jul'22
- Webinar on HTML, CSS | Learnovate Ecommerce | Oct'21

POWER SKILLS

- Adaptability
- Time Management
- Attention to details
- Creativity

EXTRACURRICULAR ACTIVITIES

- Participated in few Coding Hackathon | Dec'22
- Volunteered some events held for Hostellers | Nov'22
- Organized cultural events in Hostel | May'22

PROJECTS

Online Shopping

Mar'23
